

TOWN OF ROCKY MOUNTAIN HOUSE

P.O. BOX 1509 5116 50 AVENUE ROCKY MOUNTAIN HOUSE AB T4T 1B2

PRESS RELEASE

DATE OF RELEASE: APRIL 14, 2011

LAGOON

The Town of Rocky Mountain House and Clearwater County have been in discussions for the last fourteen months to determine a solution to meet the treatment demands of the out of Town bulk sewage. To meet licensing requirements the Town closed the lagoon to out of Town bulk sewage effective Nov 14, 2010, with the understanding that such closure would remain in effect until required upgrades were completed to meet the demand of the out of Town bulk sewage. With the recent announcement of Clearwater County to develop a new wastewater lagoon, the Town will not be upgrading the lagoon to receive out of Town bulk sewage.

The Town of Rocky Mountain House supports Clearwater County's decision to construct their own lagoon to accommodate bulk sewage treatment. The Town will continue to be good environmental stewards and act responsibly to avoid any undo liabilities to the municipality therefore the bulk sewage receiving station will remain closed for out of Town sewage.

Mayor Fred Nash
