

## **NOTICE REGARDING SECONDARY COMPOUND**

Due to Members requests for additional secondary storage facilities, the Board has directed the office to contact all Members on the waiting list for stalls as well as those who currently rent stalls by the year to see how much interest there would be to expand the compound. The project would be self-funding and would not be an expense incurred by the Association as a whole. There would be 70 sites offered on a first come, first served basis at a cost of \$800.00 plus GST for a five year term. Those Members who currently have a stall rented by the year would be given credit towards this program. Secondary stall rentals are expected to increase to \$200.00 beginning next year so there would be a considerable savings by participating in this program.

Any Member wishing to participate in this offer is requested to contact the office as soon as possible to make a commitment so that this project could commence in the near future.
